

Order Catalogue & Material Information

by rebecca goddard

How to Order

Each of our Ever Tables are made-to-order, and we are proud to provide the unique opportunity for customizations in many aspects of our products, such as material, size, shape, and fine-detailing.

Our goal is to create a table just as you've imagined — whether it be our standard Ever Table Classic or a fully bespoke design. Please take the time to explore our Order Catalogue where you will find many options to tailor your table exactly to your functional needs and stylistic preferences.

When you're ready to purchase, you can submit an order request directly through our webshop, or fill out an Order Form and submit your order request via email.

The Order Forms can be found on the last pages of this catalogue.

Ever Table Classic — Travertine & Marble

Ever Table — Classic Travertine, 120ø

The Ever Table Classic is our standard dining table option. The design features a beautiful round slab, elegantly resting atop a sculptural tapered pedestal base that's carved from swirling beige travertine.

The table is engineered in three parts and held together by its own weight and an alignment disk attached to the bottom surface of the slab. There is an additional sub-top that rests between the slab and base for added stability.

Much like a glass dining table, tables made from stone must be treated with care due to the nature of the material and the table's construction.

Dimensions: W 120cm Ø, H 74cm

Top Thickness: 2.5cm

Weight: 180kg

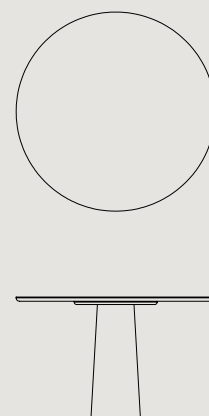

Material: Travertine

Travertine Details: Filled with color match mixture

Colors Options: Neutral or Gray

Surface Finish: Honed or Polished

Production Time: 10-14 weeks

Ever Table — Viola Marble, 120Ø

The Ever Table Classic is our standard dining table option. The design features a beautiful round slab, elegantly resting atop a sculptural tapered pedestal base that's carved from stunning veined marble.

The table is engineered in three parts and held together by its own weight and an alignment disk attached to the bottom surface of the slab. There is an additional sub-top that rests between the slab and base for added stability.

Much like a glass dining table, tables made from stone must be treated with care due to the nature of the material and the table's construction.

Dimensions: W 120cm Ø, H 74cm

Top Thickness: 2.5cm

Weight: 210kg

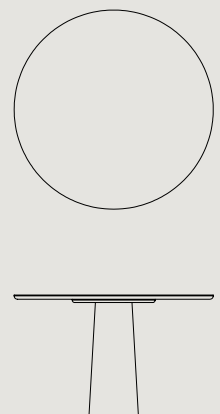

Material: Marble

Marble Name: Afyon Viola

Color Profile: Oyster White/Grey Purple-Blue Veins o

Surface Finish: Honed or Polished

Production Time: 10-14 weeks

Ever Table — Beige Marble, 120ø

The Ever Table Classic is our standard dining table option. The design features a beautiful round slab, elegantly resting atop a sculptural tapered pedestal base that's carved from swirling beige marble.

The table is engineered in three parts and held together by its own weight and an alignment disk attached to the bottom surface of the slab. There is an additional sub-top that rests between the slab and base for added stability.

Much like a glass dining table, tables made from stone must be treated with care due to the nature of the material and the table's construction.

Dimensions: W 120cm Ø, H 74cm

Top Thickness: 2.5cm

Weight: 210kg

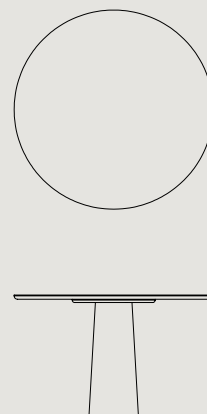

Material: Marble

Marble Name: Diana Royal

Color Profile: Beige, Off-White, Grey

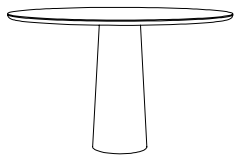

Surface Finish: Honed or Polished

Production Time: 10-14 weeks

Ever Table, Customizable Options

Our Ever Table can be customized to order and we offer a range of options so that the design fits your interior concept and lifestyle perfectly. Our four main customization categories include: base shape, size, edge style, and material.

Once you have selected the options you prefer, you can fill out an Order Form and email us your request. We will review your specifications and create a 3D project drawing of your specific table. Once you have signed-off on the final design, our stone mason will begin creating your piece.

Fully Bespoke Design

Our Bespoke Design Service

In addition to our customizable Ever Tables, we offer a fully bespoke design service and can help you bring your dream table or stone furniture to life.

We provide our bespoke services on project-basis and are happy to discuss any request you might have. We engineer each design in unison with our skilled stone mason.

Dining tables, coffee tables, side tables, benches, and other objects from stone are all within our scope of expertise. You're very welcome to email us with your request.

Marble & Travertine

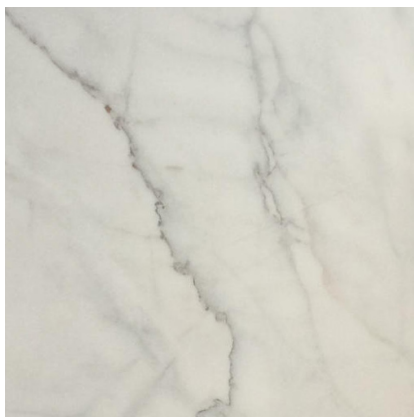

Diverse Material Options

We offer a wide selection of marble and travertine and we hand-select each stone according to your aesthetic preferences.

Travertine with a honed finish is our standard and most affordable choice in our material offering. However, we're glad to produce your design in any stone of your choosing.

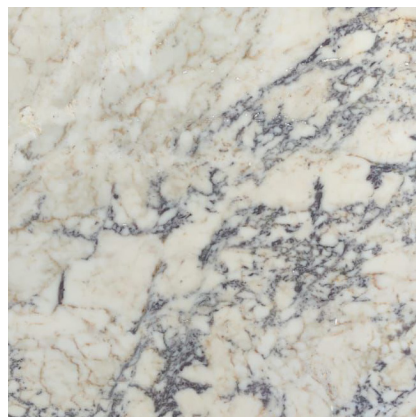

The material you select will determine the price of your table, and all customized or bespoke tables are priced per-order. We are happy to provide you with a free quote.

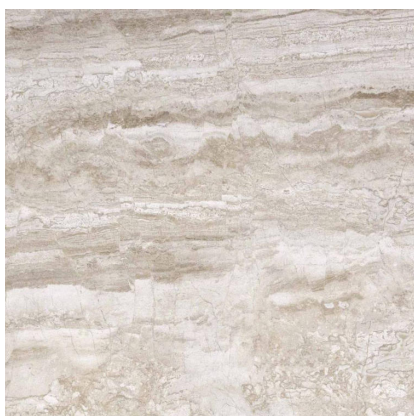

Marble — Mugal White

Marble — Calacatta Green

Marble — Afyon Viola

Marble — Diana Royal

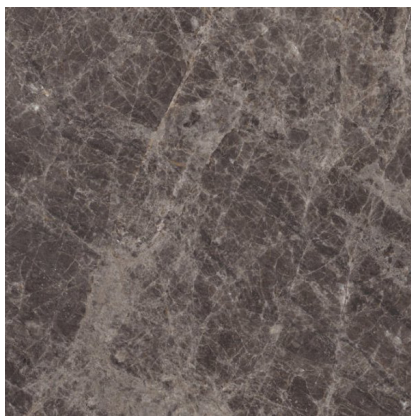

Marble — Tundra Grey

Marble — Atlantic Grey

Marble — Baltic Grey

Marble — Emperador Dark

Marble — Toros Black

Travertine — Light (cross-cut)

Travertine — Light (vein-cut)

Travertine — Grey

Marble vs Travertine

Marble

We are happy to produce any design in marble for an additional fee. The marble selected determines the up-charge and we are available to provide you with a free quote.

Our stone mason has a very wide selection of color variety in marble, and can also source special colors if you're seeking something extra unique and outside our standard range.

Marble is harder than travertine and therefore more durable. It is also less likely to surface damage because it is naturally denser and does not need to be filled.

Travertine

Travertine is our most affordable option and the standard material used for our Ever Table Classic (cross-cut beige with honed finish).

Our stone mason offers a wide range of colors, cuts, and finishes. Some light shades of travertine can have more yellow or orange undertones while others can have undertones with more beige, taupe, or pink colors. We hand-select each slab and block for every project based on your personal preferences.

Travertine is slightly softer than marble and therefore slightly less durable. The stone must be filled because of its natural open pores. All of our travertine is filled with a special color-matched cement mixture.

Travertine — Varieties & Finishes

Cross-Cut Travertine

Slabs that are cross-cut will exhibit a swirled pattern that is more similar to marble. The patterning can appear wavy or dappled. The stone has a less directional appearance since the pattern does not move in only one way. Cross-cut travertine tends to have a softer, more elegant, and feminine aesthetic. It is perfect for designs in round shapes since the pattern is fluid.

Vein-Cut Travertine

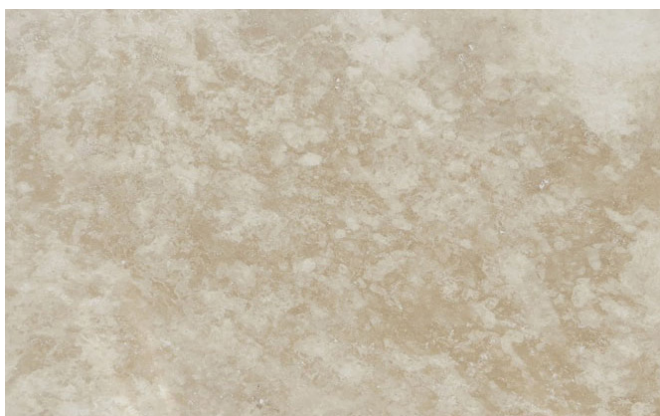

Slabs which have been vein-cut will exhibit a linear, striped pattern that is very signature to travertine. The pattern can appear reminiscent of layers in the earth. The stone has a very directional appearance since the pattern moves in a semi-uniform way. Vein-cut travertine tends to have a more bold, earthy, and dominate aesthetic. It is perfect for designs in rectangular formats.

Travertine — Cross-Cut, Polished

Travertine — Vein-Cut, Honed

Grey Travertine — Cross-Cut, Honed

Grey Travertine — Vein-Cut, Honed

Polished Travertine

Polished travertine has a luxe, shiny appearance with a smooth, slippery finish. The surface reflects more light than honed travertine and allows for easier removal of dirt with a higher resistance to stains and scratches than the honed variety. It is more durable because it has a lower porosity which allows for minimal absorbency of spills. However, all travertine is a natural material that patinas overtime and must be treated with care and attention. It can be sealed regularly for added protection.

Honed Travertine

Honed travertine has a beautiful matte finish and is smooth to the touch, although not as smooth or shiny as polished travertine. It has a higher susceptibility to stains and scratching and can be damaged by acidic liquids like orange juice and coffee. Any spill should be blotted out quickly. It should be sealed periodically and is best to regularly use coasters under glasses for more protection. All types of travertine, polished or honed, will patina over time due to the stones natural properties.

Order Forms

Order Form — Customized Ever Table

All of our Ever Tables are made-to-order. To purchase a Customized Ever Table, please fill out this order form. Please submit your order form by email. Once we have received and reviewed it, we will send you an email confirming that we have received your order request and will provide you with a quote for the table and 3D project drawing for you to review. We will also provide you with a quote for delivery on your order at this time.

After you have reviewed our quotes and 3D drawings and we have agreed to all terms of the order, we will provide you with a final invoice. The invoice must be paid in-full before we will begin production on your customized design.

Please be aware that we cannot offer returns for products that are custom or made-to-order, since these products are made specifically for you. Please also note that it is not possible to cancel your order once our manufacturer has begun production.

By emailing us this form, you are only submitting a request for purchase. This form is not a legally binding contract.

Please email to: info@byrebeccagoddard.com
